ABSTRACT:

PROBLEM TO BE SOLVED: To obtain a fruit beverage capable of healing mouth dryness by only a small amount of drinking.

SOLUTION: This fruit beverage is obtained by adding a sweetener, an organic acid, flavor, etc., at need, to fruit juice of berries such as cranberry of the genus Vaccinium Linn. or berry of the genus Rubus Linn. or Ribes Linn. and packing these fruit juices into a pressure vessel with a pushing down valve. Mouth dryness is healed by a small amount of drinking when fruit juices are sprayed into oral cavity by pushing down the valve.
